Alcock's porous plaster (F.), 369.
Alcohol, excretion of, through respiratory tract, 322.
hypodermic use of, in adenitis, 235.
Alcoholic liquors, critical examination of, 156.
Alcoholism, arsenic as an antidote to, 277.
Aleuritis trilobæ, 310.
Alkalies, use of, instead of the iodide of potassium, 130.
Alkaloids, estimation of, 64.
Almond bran (F.), 374.
Alopecia, treatment by electricity, 305.
Alstonia bark, 163.
Amenorrhœa, electricity in, 238.
Ammonia, liniment of (F.), 90.
Ammoniac, mixture of, 54.
Ammonium, bromide of, in menorrhagia, 22.
in rheumatism, 115.
Amyl nitrite, action of on blood-corpuscles and temperature, 127.
on vessels of the brain, 104.
in cardalgia and tetanus, 119.
production of, 53.
Amyl nitrite, peculiar effects of, 28.
remedial value of, 197.
value of, in various forms of spasm, and as an aid to diagnosis, 193.
Amyl nitrate, 349.
Anæmia, tonic in (F.), 373.
Anæsthesia, relieving difficult respiration in, 226.
state of pupils during, 220.
Andrographidis, 164.
Aniline brown, poisoning by, 358.
Aniseed cordial (F.), 85.
Anodyne, a convenient (F.), 181.
emulsion (Hoffman's) (F.), 87.
Antiarin and its effects on the circulation, 309.
Anti-cancerous solution (F.), 86.
Anti-emetic properties of strychnia, 34.
Anti-gastralgic mixture (F.), 88.
Antimony, its analogy to arsenic and phosphorus, 185.
Antiseptic ointment (F.), 191.
Aperients, hypodermic, 125.
Apomorphia, 199.
Arnica, poisonous when applied to skin, 178.
in orchitis, 324.
Arsenic, capacity of plants to absorb, 277.
in diabetes mellitus, 224.
in large doses in chorea, 217.
its analogy to phosphorus and antimony, 185.
test for, in sulphur, 184.
Asarum Canadense, action of, 113.
Aseptin (F.), 371.
Assafœtida, mixture of, 54.
Asthma, action of ipecacuanha spray in, 5.
Grindelia robusta in, 316.
Ateas, 160.
Atropia and morphia, 78.
Atropia as an antidote to jaborandi, 206.
as an antidote to opium, 358.
effect of, used hypodermically, 223.
poisoning by, 78.

BALDNESS, pomatum for (F.), 87.
Bamboo, poison in, 183.
Baths employment of, during menstruation, 112.
Bela, 161.
Belladonna juice, 58.

Benzoate of lithia (ferruginous), treatment of gout with, 13.
Benzoic acid in cystitis, 33.
in gonorrhœa, 20.
Benzoic and salicylic acids, antiseptic effects, 325.
Benzoin, compound tincture of, in chronic dysentery, 321.
Berberine, a new reaction of, 270.
Biliary secretion, effects of drug on, 289.
Bismuth, crystallized, 48.
Bladder, ergot in paralysis of the, 219.
Blood-corpuscles, influence of mercury on, 28.
action of nitrite of amyl on, 127.
Blood, nutritive value of substances in, 319.
Boldo, 43, 165.
Bonduc seeds, 162.
Boracic acid as an antiseptic dressing, 8.
Braço de Preguiça, 334.
Borax, Californian, 341.
Brandy, to make (F.), 283.
Brazilian drugs, 330.
Bromal hydrate, physiological action of, 32.
Bromhydric acid as a tonic, 239.
Bromide of ammonium in catamenial excess, 310.
Bromine in pertussis, 229.
manufacture of, in the United States, 260.
Bromoform, anæsthetic action of, 327.
Brucine, its conversion into strychnine, 348.
Bee-poisson, innoculation with, 177.
Burn mixture (Ch. Rice's), 342.
Butter, detection of meat fats in, 66.

CAFFEINE, action of valerianate of, 227.
Calabar bean, uses of, in impairment of accommodation, 213.
Calomel, subcutaneously in pneumonia, 11.
Camphor, action of, in erysipelas, 15.
action of, on plants, 14, 228.
Camphorated phenol, 169.
Camphor ice (F.), 187.
Camphor ointment (F.), 372.
Camphor, poisoning by, 365.
Cancer of uterus, application of tinct. ferri chlor., 112.
solution of perchloride of iron in, 225.
Cancer, use of silica in, 236.
Cane-sugar, adulteration of, 158
Cannabis indica in gonorrhœa, 20.
Cantharidal cerate, 258.
Cantharides, medical properties of, 15.
action of, 226.
Cantharadine tissue, preparation of, 169.
Caoutchouc, 272.
Caoutchouc-dressings in skin diseases, 313.
Capsicum, adulterated, 66.
Capsicum, tincture of, in treatment of tippling, 323.
Carbolic and salicylic acids in diabetes, 232.
Carbolic acid, antidote for, 367.
antiphlogistic action of, 232.
as an anthelmintic, 237.
in cheesy pneumonia, 27.
poisoning by, 367.
poisoning by, 178.
used subcutaneously in erysipelas, 121.
Carbon sulphuret, use of, in treatment of ulceration, 233.
Cardalgia, nitrite of amyl in, 119.
Castor-oil, administration of (F.), 373.
falsification of, 67.
Catarrh, remedy for (F.), 85.
Cathartic in advanced heart disease (F.), 87.
Cough, action of ipecacuanha spray in, 5.
Caustic, bromide of potassium as, 23.
Cauterizing, new method (F.), 191.
Cautery, actual (F.), 370.
Celastrus Paniculata, 329.
Cement for broken glass, etc. (F.), 88.
Cerebral rheumatism, chloral hydrate in, 303.
Chalybeate water (F.), 85.
Chapped hands (F.), 189.
Cherry laurel, essential oil of, 347.
Chilblains (F.), 189.
Chinchona alkaloids, 292.
Chloral hydrate, action of, 301.
and bicarbonate of soda, 303.
as an external application, 303.
as a preventive of sea-sickness, 123.
as preservative of hypodermic injections, 57.
death after intravenous injection of, 182.
effect of warmth in poisoning by, 76.
enemata of, 304.
estimation of, in presence of sulphurous acid,
formula for (F.), 373.
in cerebral rheumatism, 303.
in obstetric practice, 301.
in tetanus, 121.
manufacture of, 173.
physiological action of, 32.
pills of (F.), 373.
poisoning by, 180, 363.
suppositories (F.), 88, 191, (F.), 373.
treatment of cholera, 300.
treatment of tetanus, 362.
toxic effects of, 76.
Chloralism, 359.
Chloralyde, 270.
Chlorhydrate of morphia in insanity, 10.
Chloride of gold and sodium in hysteria, 309.
of zinc as an antiseptic, 238.
Chloridine, 256.
Chlorine water (F.), 283.

Chloroform, action of, on vessels of the brain, 104.
anæsthesia, state of pupil in, 29.
as preservative of vegetable infusions, 58.
death from self-administration of, 184.
in natural deliveries, 231.
narcosis, Nélaton's method in, 183.
tippling, 81.
Chocolate in chronic intestinal catarrh, 115.
Cholera, chloral-hydrate treatment of, 300.
Chorea, action of eserina in, 216.
bromide of iron in, 217.
large doses of arsenic in, 217.
Cider, to keep sweet (F.), 92.
Cinchona trees, attempted acclimatization of, in Reunion Island, 265.
Cinchonidine, sulphate of, 295.
Clitorea Ternatea, 328.
Cloves of Zanzibar, 261.
Coal-gas, poisoning by, 366.
Coal-oils used in the preparation of alkaloids, 258.
Cocoa, preparations of, 38.
Cocoaine, physiological properties of, 116.
Codeine and morphine derivatives, action of, 315.
Cod-liver oil and quinine (F.), 282.
Cod-liver oil, formula for (F.), 374.
mode of action, 125.
to take (F.), 86.
with benzoate of iron, 151.
Coffee, iodized (F.), 369.
Coke-gas, poisoning by, 368.
Colchicum autumnale, peculiar action of flowers, 81.
Cold baths in cerebral rheumatism, 237.
Cold pack in rheumatism, 236.
Collodion and morphine in shingles, 33.
Collodium antiphelidicum (F.), 191.
Conium, action of, on cutaneous sensibility, 132.
Constipation, pills for (F.), 87.
Copaiba as a diuretic, 234.
Copaiba balsam in ophthalmic cases, 232.
Coptis root, 159.
Corrosive sublimate, incompatibility of, with muriate of morphia, 172.
Coryza, tannin in, 119.
Cosmetic powders (F.), 189.
Cosmoline, 350.
Coumarine, 141.
Crab-orchard salt, 272.
Creosote, mode of administering (F.), 87.
Creyat, 164.
Croton chloral, 306.
compared with chloral hydrate, 306.
solution of (F.), 91.
Croton-oil liniment (F.),192.
Crytopin, 265.
Cundurango in epithelioma, 27.
Cyanides in rheumatism, 111.
Cynara in rheumatism, 112.
Cypripedine, poisoning by, 178.
Cystitis, benzoic acid in, 33.
salicylic acid in, 326.

DAMIANA, 261.
Dextrine, mode or preparing, 259.
Diabetes mellitus, use of arsenic in, 224.
Diachylon plaster in hyperidrosis, 326.
Diarrhœa, chocolate in chronic, 115.
Diastase, preparation of, 260.
Digitalis, diuretic action of, 17.
in typhus, 200.
test for, 63.
the principles contained in, 347.
Digitaline, chemical nature of, 264.
Diphtheria, salicylic acid in, 325.
Dintrobenzole, physiological effects of salts of, 224.
Drunkenness, Russian cure for, 312.
Diuretic wine (F.), 191.
Dry earth in treatment of ulcers, 324.
Dysentery, ailanthus in, 118, 235.
chronic, compound tincture of benzoin in, 321.
nitrate of soda in, 327.
Dysmenorrhœa, quinia and stramonium in, 21.
Dyspnœa of phthisis, atropia and morphia in, 326.

EAST INDIAN DRUGS, 159.
East Indian medical plants, 328.
Electricity in amenorrhœa, 238.
in catarrhal jaundice, 236.
in hemicrania, 304.
treatment of alopecia by, 305.
treatment of herpes zoster, 305.
Emetics, action of, on striated muscles, 129.
in cold stages of ague, 130.
mode of action of the common kinds, 227.
Emulsions, 55.
Epilepsy, picrotoxine in, 320.
veratrum viride in, 321.
Epithelioma, cundurango in, 27.
wood-sorrel in, 327.
Ergot, active principle of, 103.
and its liquid extract, 335.
in acute mania, 220.
in cystic paralysis, 219.
methods of preserving, 156.
new preparation of, 50.
phosphoric acid in, 263.
therapeutics of, 218.
to prevent excessive secretion of milk and mastitis, 219.
Ergotine hypodermically in purpura, 317.
in uterine fibroids, (See 97,) 103.
action of, on vessels of the brain, 104.
in croupous pneumonia, 103.
in lukæmia, 105.
used hypodermically in uterine fibroma and myoma, 97.
Erysipelas, carbolic acid subcutaneously in, 121.
